SEVERE WEATHER® DOORGLASS DELRAY: Doorlight 686-DRY, Sidelight 690-DRY

SEVERE WEATHER® DOORGLASS

An attractive alternative to storm shutters

Severe Weather® doorglass is certified for use in a wide range of entrance systems. Our patented design provides protection from wind-borne debris in areas where wind speeds can exceed 150mph. Meets High Velocity Hurricane Zone (HVHZ) and Department of Defense minimum anti-terrorist blast standards. Test reports available at www.odl.com.

The added value of noise suppression

Laminated Severe Weather® doorglass reduces sound transmission. See page 115 for Sound Transmission Class (STC) rating.
