Custom Glass Program

A spectrum of custom capabilities

From selecting an existing doorglass design and modifying the coming finish, glass colors, or opacity level, to modifying the size, to adding new design features into an existing pattern, ODL has options. Look for the Customize icon  in our catalog to determine which designs can be customized. We can also help when you have a great idea for your own unique design.

CUSTOM SEVERE WEATHER DOORGLASS

ODL's Severe Weather doorglass takes our custom doorglass program to the next level. Change doorglass colors, modify the finish or opacity level, and select the coming finish of your choice. Severe Weather doorglass provides the protection you need in the high velocity hurricane zone (HVHZ) and High Velocity Windborne Debris areas.

SEVERE WEATHER FRAME

ODL's patented frame design, which is mechanically fastened in the corners to prevent flex, adds strength to the door. With a classic frame profile the narrow aluminum extrusion adds strength while maintaining a pleasing shape. The natural contours provide a traditional architectural style, while the white powder coat surface provides a high gloss polished finish.

Severe Weather Frame

Our custom program is scalable, flexible, and based on the spectrum of customer requests.

Choose your design from our offering or create your own.

Choose your CAMING FINISHES

We offer a variety of coming finishes to blend with your door hardware or other features in your home.

*ODL standard wrought iron designs can only be modified with glass texture changes.

Choose your GLASS TEXTURES and COLORS

Choose from over 70 glass textures and colors to create the right opacity levels and aesthetics for your home. For actual color and opacity reference, samples are available upon request.
