Standard steel door templates are full door templates and are available in either 1/2" particle board or 1/2" plywood. Standard templates are made for a cutting tool with a 1-1/2" template guide and a 1/2" bit. Templates for less than the full door are also available.

The hole punching template (for plastic plants) is designed for use with a piercing tool with a 5/8" template collar and a 3/16" or 1/4" punch.

Important Information for Placing Template Orders:

- Specify if templates are used for: tracing, table router, or a Pease door router.
- Specify brand of door, ODL doorlight number and size of doorlight you want to route for.
- Specify brand of router or template guide, and bit size of your cutter.
- Linings can be applied to particle board or plywood, but not all shapes can be upgraded, please inquire.
- All prices are F.O.B. Grand Rapids, MI.
- Please place your template order directly with Grooters Machine & Template Shop, LLC.
- Prices are subject to change without notice. Call Grooters for current pricing.

Please place your template order directly with Grooters Machine & Template Shop, L.L.C.
