All doors featured in this catalog are Wind-Borne Debris Region (WBDR) approved, and all doorglass shown is impact rated for enhanced protection. Look for icons throughout the catalog to identify products that are also rated for High-Velocity Hurricane Zones (HVHZ).

HVHZ & WBDR Approved Options 

Impact Rated Steel options are also available, visit odl.com/impact-rated to learn more.

Products featured on cover:
8'0" Estate Fiberglass Door | Briselle | Keystone Frame

A woman with long blonde hair, wearing a light blue sleeveless top and light blue pants, is sitting on a concrete step. A golden retriever is lying down next to her, looking towards the camera. They are in front of a modern house with a dark door and a large window with a textured glass insert. The scene is lit with warm, golden light, suggesting sunset or sunrise. A large green plant is visible on the left side of the frame.

Why ODL

From the creation of the first doorlight on record in the early 1950s, we've been committed to building value through innovations in materials and manufacturing processes. We continue to invest in research and thoughtful design, bringing forward trends and technologies that meet the needs of today—and often inspire the possibilities of tomorrow. We aren't afraid to lead.

When you buy from ODL, you're choosing more than a manufacturer. You're choosing a partner dedicated to quality, innovation, and a better experience at every stage.

CONSISTENTLY MAKING LIVES BETTER FOR OVER 80 YEARS

INDUSTRY LEADER IN SERVICE

Our customer relationships are founded on consistent performance and trust built over time.

LEGACY OF BROADER SELECTION

Our industry-leading doorglass offering combined with our extensive assortment of fiberglass and steel doors fulfills a wide range of individual tastes and market needs.

QUALITY IS OUR PRIORITY (BUILT TO LAST)

Entry solutions that work overtime, every time.

FRESH IDEAS, BIG AMBITIONS

We're always at work on what's next in security, performance, and style.

Impact Rated Solutions

BEAUTY MEETS STRENGTH IN EVERY STORM

With strong storms threatening our coastal communities, ODL has invested heavily in protective products that don't sacrifice on looks.

If you live in a zone with severe weather and high winds, your entry door is more than just a design element. During a hurricane, it can also protect your family and home from harm. Impact rated door systems and doorglass are essential to your safety, security, and peace of mind.

At ODL, we're proud to offer builders, renovators, and homeowners impact rated door systems that are durable, beautiful, and most importantly, able to protect their homes from severe weather.*

IMPACT RATED DOORS

We believe that every home can and should have beautiful entry doors, even if you live in an area affected by severe weather or high winds. That's why we design high-quality entry doors for homes in wind-borne debris regions and high velocity hurricane zones that don't compromise on style.

IMPACT RATED DOORGLASS

We've been fabricating impact rated doorglass for decades. We offer a comprehensive range of camed decorative, privacy + textured, and clear impact rated doorglass, with options for grilles between glass and enclosed blinds + glass to match the style of any home.

KEYSTONE FRAME

The Keystone frame is revolutionizing the way homes in severe weather areas stand against storms. Sleeker, lighter, and easier to install and maintain, Keystone is constructed of uPVC vinyl with a co-extruded seal. Our new impact rated frame removes unsightly screw holes with a smooth, snap-on frame cover that's easy to finish.

Built to Withstand.

HIGH VELOCITY HURRICANE ZONE AND WIND-BORNE DEBRIS REGIONS

HVHZ & WBDP APPROVED DOOR SYSTEMS

Our industry-leading assortment of fiberglass doors delivers style, selection, and certified protection for demanding coastal conditions. Choose from flush glazed, impact-rated glass, or solid-paneled designs across Estate, Shaker, and Craftsman styles—all engineered to meet regional code requirements.

DESIGN PRESSURES UP TO:

6'8": DP65 | 8'0": DP50*

OPAQUE: DP +65/-70 | GLAZED: DP ±50

PERFORMANCE FEATURES

Strength

Reinforced fiberglass door skins and a high-density polyurethane core provide exceptional impact resistance and long-term structural support.

Weather Resistance

Composite-capped LVL stiles and composite top and bottom rails resist water absorption, rot, mold, and wood-ingesting insects.

Security

Flush glazed doors feature full-length 4" stiles on both sides; paneled doors with Standard Plus Build include an enhanced full-length engineered lumber lock stile for added rigidity and security.

Energy Efficiency

High-density polyurethane foam core enhances thermal performance.

Versatility

Available in Rift Cut or Satin Smooth textures, ready to stain or paint, in both 6'8" and 8'0" heights.

*To confirm code requirements in your jurisdiction, always check with your local building code authority.

800.253.3900 · odl.com/impact-rated

Impact Rated Solutions

DURABLE, HIGH-QUALITY MATERIALS

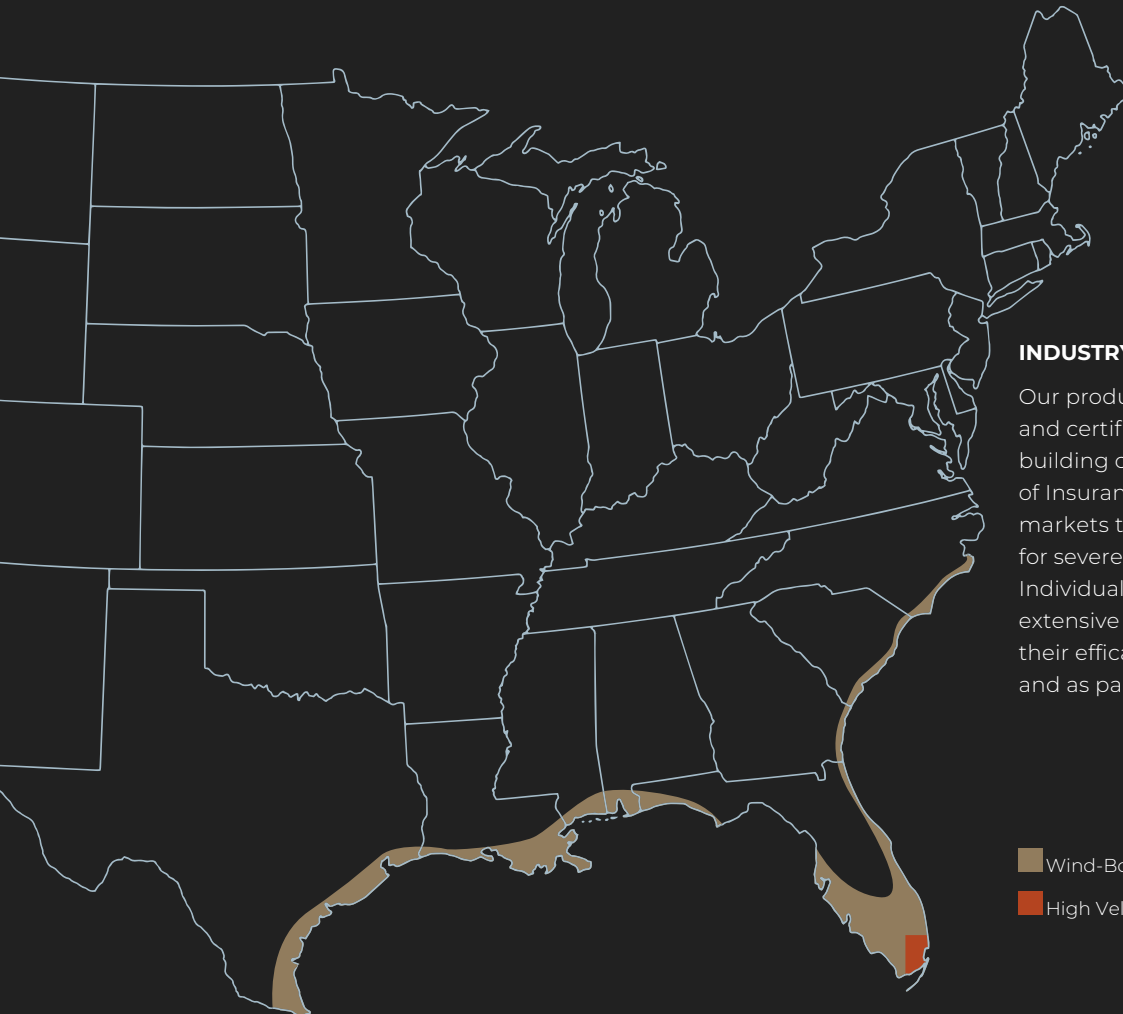

Because we use high-grade fiberglass, engineered lumber, and high density polyurethane foam for our impact door and high-grade plastic, aluminum, and laminated glass for our severe weather doorglass and frames, our impact rated products are engineered for the toughest weather conditions. You never have to worry about our product's integrity compromising the strength of your door's system, creating the security you need in almost all geographic locations.

BEAUTIFUL, FUNCTIONAL DESIGN

Functional products and systems should be able to protect your home without sacrificing your taste and style. Our products are engineered to protect and designed to match the style of any home. And unlike storm shutters, installing ODL Doors with Impact Rated Doorglass on your home invites daylight into your home while protecting from severe weather.

ADDED VALUE, NOISE SUPPRESSION

ODL Impact Rated Doorglass provides you with a quieter solution over storm shutters, carrying a sound transmission class rating up to 39 dB for a level of sound suppression that is welcomed year-round. Third party test reports are available at: odl.com/stc

INDUSTRY-LEADING CERTIFICATIONS

Our products are engineered, tested, and certified to meet the Florida building codes and Texas Department of Insurance approval—two distinct markets that set the highest standards for severe weather-resistant glass. Individual components undergo extensive testing and analysis to ensure their efficacy as individual components and as part of a system.

Flush Glazed Collection

CLEAN STYLING. GREATER VIEWS.

Invite more daylight into your home with our flush glazed doors, designed with a clean look and 14% more viewing area. Like real wood doors and windows, flush glazed doors are engineered with glass glazed directly into the door to eliminate the need for a doorglass frame. Choose from a wide variety of glass and blind options to complement your home's architectural style in any entryway.

SATIN SMOOTH
Paintable

FEATURES + BENEFITS

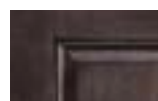

- Experience 14% more daylight than that of traditional doorglass frames.
- A variety of decorative, privacy + textured, and classic clear glass designs with Low-E 366 options, varying aesthetics, and opacity levels creates a wide range of looks.
- Clean design details meet demand to complement today's homes from Classic to Modern.
- Offered in both stainable and paintable doors for broad appeal.
- Enhanced 4" full-length engineered lumber lock stile for rigidity, security and multipoint lock applications.
- Composite capped LVL stiles and composite top and bottom rails protect against water absorption, rot, mold and wood-ingesting insects.
- Provide exceptional energy efficiency by insulating against both cold and heat.
- Available in 6'8" and 8'0" door heights.
- Includes trimmed black glazing tape between glass and door to eliminate concerns with finish weep
- Offered as impact rated, enabling safety and security while maintaining beauty.

Estate Collection

CLASSIC DESIGN. CURVED DETAILS.

Our Estate fiberglass doors feature edge embossment details inspired by handcrafted wood doors for a time-honored style. The elegant, curved edge is an updated take on traditional design with wider, modernized panel details.

Keystone Frame

Our vision at ODL is to lead the industry in doorlight frames for innovation, design and performance— solving problems others won't. We have done that with Keystone, which was engineered to use a lightweight, composite material without sacrificing performance.

Learn more at odl.com/keystone

FEATURES + BENEFITS

- **IMPACT RATED:** Design pressure rating of 65 PSF
- **GRIP-AND-RELEASE SYSTEM:** Interlocking stems secure the frame—no Dow 995 application required—yet remove easily for service without damage
- **CO-EXTRUDED SEAL:** Stops debris from collecting between the frame and glass, keeps paint from seeping
- **FRAME + IG ALIGNMENT:** H-Channel design to allow for seamless installation
- **COMPATIBLE PROFILE:** Matches existing aluminum frame profile to allow a single unit replacement, external SDL bars can be applied

KEYSTONE SOLVES PROBLEMS

MATERIAL

Problem: Aluminum is heavy, not easily paintable, and the powder coat can bubble.

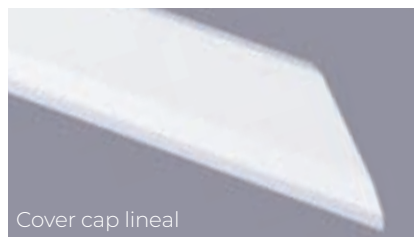

Solution: uPVC material is lighter, easier to finish and shipped with a protective film.

MITER CORNER AESTHETICS

Problem: Other frames can have gaps between the miters and corner offset.

Solution: Welded corners and optimized cover cut length eliminate offset and minimize gaps.

SAY GOODBYE TO SCREW HOLE PLUGS: NEW FRAME COVERS

Screw hole plugs can be a necessary evil—they fill in the holes left by a screw frame, but they can be difficult to install correctly so they are flush with the frame, can be time consuming to install, and they can be hard to finish.

Keystone solves for this with frame covers that snap on over the frame. You only need to install 4 covers per frame regardless of size. The surface is flawlessly smooth, and if you decide to finish them it is a one step process.

DOORGLASS PRIVACY

As ODL continues to add a variety of doorglass designs with different types of glass, our customers are asking questions about how we determine our privacy levels. With no industry standard, every manufacturer is free to determine what the opacity or privacy level is for their doorglass. We are leading the way with a standard test using a spectrophotometer to produce an objective number for every glass, every time.

We have eliminated arbitrary numbers and simplified our privacy levels to five categories: none, low, medium, high and maximum. We have created a Privacy Rating scale to visually show this for every doorglass design:

PRIVACY RATING

The examples below show a doorglass design that falls into each one of the five privacy level categories or go to odl.com/impact-rated:

IMPACT RATED TRANSOMS

- Florida approval number #FL27399
- Meets Florida Severe Weather requirements of +/- 60 DP Design Pressure
- Transom IG has exterior backer glass and interior laminated PVB layer for maximum safety
- Specially designed trim strip allows for maximum water run off
- Order with or without brickmold
- Available in a composite jamb primed white
- Custom shapes and sizes for WBD and HVHZ zones available from ODL Custom Solutions

Certifications + Approvals

ENGINEERED FOR COASTAL STRENGTH

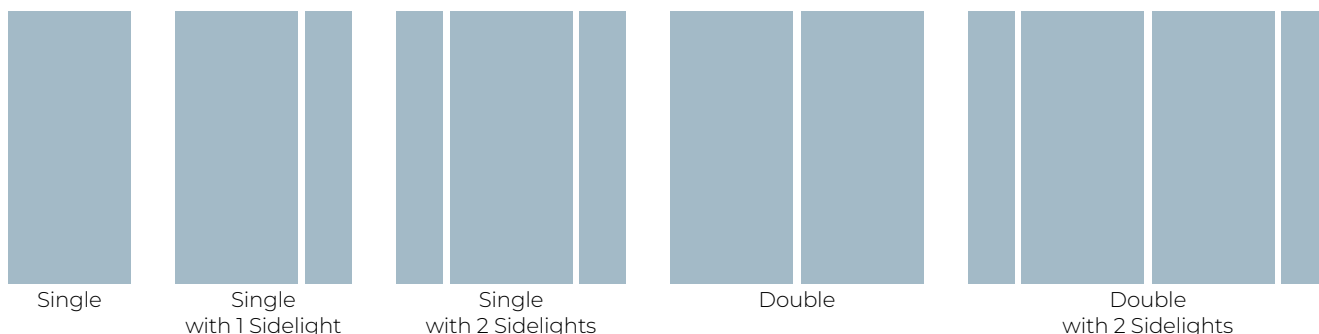

WIND-BORNE DEBRIS approval applies to Standard Plus built 6'8" and 8'0" paneled doors and 6'8" and 8'0" flush glazed doors.

- Select from a full range of solid-paneled doors, or a door with impact rated glass constructed as flush glazed or impact rated doorglass frame insert.
- Designed to withstand wind forces up to: Opaque = DP +65/-70, Glazed = DP +/-50*.

HIGH VELOCITY HURRICANE ZONE approval applies to Standard Plus built 6'8" and 8'0" paneled doors and 6'8" and 8'0" Flush Glazed doors.

- Select from a wide range of solid-paneled doors, or a door with impact rated glass constructed as flush glazed or impact rated doorglass frame insert.
- Designed to withstand wind forces up to: 6'8": DP65, 8'0": DP50*.
