A MODERN ALTERNATIVE TO TRADITIONAL BLINDS.

**Blink Blinds + Glass is a
blinds-between-glass IG
panel for doors and windows.**

MEET BLINK

Building upon our 70-year history of developing IG panels for doors, ODL continues to innovate in the blinds-between-glass category, where we have been the industry leader for over 20 years. Our industry relationships led us to discover that manufacturers, builders and homeowners wanted a simple solution that addressed and solved concerns about the safety, cleaning, and lack of ease associated with traditional blinds. That's why ODL created a modern alternative to traditional blinds.

Our most recent product innovation, Blink Blinds + Glass, allows for custom sizes and colors in as few as eight days, with the quality, reliability, and warranty you've come to expect from ODL. Homeowners and window manufacturers can rely on Blink Blinds + Glass for designs and options to fit every home.

Our goal is to provide quality products that improve your everyday life. In addition to a 10-year full replacement, Blink offers the color options and configurations needed to compliment any architectural style. With Blink Blinds + Glass the possibilities are endless!

blink 7/8" RLT-Top
